Summary

I'm a Postdoctoral researcher at the Technical University of Denmark working at the intersection of transportation science, climate adaptation, and urban sustainability. My research integrates spatial analytics, machine learning, and environmental modeling to understand human-environment interactions in urban contexts, with particular focus on climate risks, road safety, mobility, and wellbeing. I'm currently developing an AI-driven spatial framework to model how flooding impacts urban transportation systems and community quality of life, and to discover optimal adaptation pathways through reinforcement learning. I obtained my PhD (*summa cum laude*) from Instituto Superior Técnico, Portugal, where I developed geospatial machine learning methods to map cycling safety, both objective accident risk and subjective safety perceptions.

Research Interests: Intelligent Transportation Systems, Urban Environments & Contexts, Geospatial Analysis, Smart Mobility, Computer Vision, Machine Learning, Urban Mobility, Climate Adaptation, GeoAI

10. Extracurricular Courses & Schools . . . 11

1. Education

PhD **Transportation Systems (MIT Portugal), 2024**
Instituto Superior Técnico, Universidade de Lisboa, Portugal
Pass with Distinction and Honor (equivalent to *summa cum laude*)

MSc & BSc **Electrical & Computer Engineering, 2017**
Instituto Superior Técnico, Universidade de Lisboa, Portugal

2. Experience

Mar 2024 - Present **Technical University of Denmark, Denmark**
Postdoctoral Researcher
Developing tools that aid climate change adaptation planning using a multi-modular AI framework to model dynamics effects between climate, transport, and wellbeing.
Advisor: Francisco C. Pereira

Oct 2018 – Feb 2024 **Instituto Superior Técnico, Portugal**
Graduate Researcher
Developed a framework using machine learning for understanding and mapping objective cycling safety, subjective cycling safety, and the relation between the two.
Supervisors: Filipe Moura, Manuel Marques, and Carlos Lima Azevedo

May 2022 – Dec 2022 **Technical University of Denmark, Denmark**
Visiting Researcher
Analysed objective cycling safety using a machine learning-econometrics combined model. Created a novel framework for studying subjective cycling safety.
Hosts: Carlos Lima Azevedo and Felix Wilhelm Siebert

Jul 2017 - Sep 2018 **Instituto Superior Técnico, Portugal**
Research Assistant
Created 3 data acquisition platforms: i) 3D scanning sidewalks, ii) cycling maneuvers recognition; iii) counting passengers in a subway trains.
Supervisors: Manuel Marques and João Paulo Costeira

3. Teaching

2026– (Spring) **Technical University of Denmark, Denmark**
Lecturer
42578 Advanced Business Analytics (graduate level, MSc)
Designed and presented modules on *Computer Vision* and *Reinforcement Learning*, including theoretical concepts and hands-on coding examples (notebook-style code). Evaluated final group projects.

2024–2025 (Spring) **Technical University of Denmark, Denmark**
Guest Lecturer
42578 Advanced Business Analytics (graduate level, MSc)
Designed and presented a module on *Introduction to Computer Vision*, including theoretical concepts and practical examples (notebook-style code).

2019–2023 (Fall) **Instituto Superior Técnico, Portugal**
Guest Lecturer
Transport Demand Modelling (graduate level, PhD)
Designed and presented a module on *Discrete Choice Models*, including theoretical concepts, algorithmic details, and practical examples (notebook-style code). Designed and graded final projects.

Peer-Reviewed Conference Articles

Presenter underlined if not first author; (*) denotes shared first-authorship.

16. 2025 **Climate Adaptation with Reinforcement Learning: Economic vs. Quality of Life Adaptation Pathways**
Miguel Costa, Arthur Vandervoort, Martin Drews, Karyn Morrissey, Francisco C. Pereira
In *AI for Climate and Conservation Workshop at EurIPS 2025*, Copenhagen, Denmark (Poster)

15. 2025 **Incorporating Quality of Life in Climate Adaptation Planning via Reinforcement Learning**
Miguel Costa, Arthur Vandervoort, Martin Drews, Karyn Morrissey, Francisco C. Pereira
In *AI in Science (AIS) 2025*. Copenhagen, Denmark (Poster)

14. 2025 **Plugging Schema Graph into Multi-Table QA: A Human-Guided Framework for Reducing LLM Reliance**
Xixi Wang, **Miguel Costa**, Jordanka Kovaceva, Shuai Wang, Francisco C. Pereira
In *Findings of the Association for Computational Linguistics: EMNLP 2025*, pages 5829–5842, Suzhou, China. Association for Computational Linguistics. (Poster)

13. 2025 **Using Reinforcement Learning to Integrate Subjective Wellbeing into Climate Adaptation Decision Making**
Arthur Vandervoort*, **Miguel Costa***, Morten W. Petersen, Martin Drews, Sonja Haustein, Karyn Morrissey, Francisco C. Pereira
Tackling Climate Change with Machine Learning workshop at *International Conference on Learning Representations (ICLR) 2025*, Singapore (Poster)
Best Proposal Award

12. 2024 **Climate Adaptation with Reinforcement Learning: Experiments with Flooding and Transportation in Copenhagen**
Miguel Costa, Morten W. Petersen, Arthur Vandervoort, Martin Drews, Karyn Morrissey, Francisco C. Pereira
Tackling Climate Change with Machine Learning workshop at *Conference on Neural Information Processing Systems (NeurIPS) 2024*, Vancouver, Canada (Poster)

11. 2024 **Comparing the Effects of Urban Elements on Objective and Subjective Cycling Safety: A Berlin Case Study**
Miguel Costa, Manuel Marques, Filipe Moura, Carlos L. Azevedo, Felix W. Siebert
International Cycling Safety Conference 2024. Imabari, Japan (Oral)

10. **2024** **Urban Motorcycle Helmet Use Surveillance in Southeast Asia - A Cost-Efficient Computer Vision Approach**
Felix W. Siebert, Christoffer Riis, **Miguel Costa**, Frederik B. Hüttel
15th World Conference on Injury Prevention and Safety Promotion (Safety 2024). New Delhi, India (Oral)

9. **2024** **Capturing Spatial Heterogeneity in Cycling Accidents using a Latent Class Discrete Outcome Model**
Miguel Costa, Carlos L. Azevedo, Felix W. Siebert, Manuel Marques, Filipe Moura
hEART 2024: 12th Symposium of the European Association for Research in Transportation. Helsinki, Finland (Oral)

8. **2023** **Understanding Perception of Cycling Safety through Pairwise Image Comparisons**
Miguel Costa, Manuel Marques, Felix W. Siebert, Carlos L. Azevedo, Filipe Moura
International Cycling Safety Conference 2023. The Hague, The Netherlands (Oral)

7. **2023** **Scoring Cycling Environments Perceived Safety using Pairwise Image Comparisons.**
Miguel Costa, Manuel Marques, Felix W. Siebert, Carlos L. Azevedo, Filipe Moura
2023 IEEE 26th International Conference on Intelligent Transportation Systems (ITSC) (pp. 4046-4051). IEEE

6. **2022** **Augmentation in the Urban Environment: A Barcelona Case Study**
Miguel Costa, Manuel Marques, Felix W. Siebert, Carlos L. Azevedo, Filipe Moura
International Cycling Safety Conference 2022. Dresden, Germany (Poster)

5. **2022** **Perceiving objective cycling safety: a systematic literature review**
Ana Karina Christ, **Miguel Costa**, Manuel Marques, Carlos Roque, Filipe Moura
Transportation Research Arena. Lisboa, Portugal.

4. **2021** **Impact of COVID-19 lockdown on the Behavior Change of Cyclists in Lisbon, using multinomial logit regression analysis.**
Miguel Costa, Rosa Félix, Manuel Marques, Filipe Moura
Transportation Research Board Annual Meeting 2021. (Online, Poster)

3. **2019** **WalkBot: A Portable System to Scan Sidewalks**
Miguel Costa, Paulo Cambra, Manuel Marques, Filipe Moura
2019 IEEE International Smart Cities Conference (ISC2) (pp. 167-172). IEEE. Casablanca, Morocco.

2. **2019** **WalkBot – Desenvolvimento de um Equipamento de Avaliação da Qualidade da Infra-estrutura Pedonal com Recurso a Processamento de Imagem Tridimensional**
Paulo Cambra, **Miguel Costa**, Manuel Marques, Filipe Moura
Congresso Rodoviário Português. Lisbon, Portugal.

1. **2017** **A context aware and video-based risk descriptor for cyclists**
Miguel Costa, Beatriz Q. Ferreira, Manuel Marques
2017 IEEE 20th International Conference on Intelligent Transportation Systems (ITSC) (pp. 1-6). IEEE. Yokohama, Japan.

Thesis (Ph.D. & M.Sc.)

2. **2024** **Objective and Subjective Safety Mapping for Urban Cyclists**
Ph.D. Thesis, Transportation Systems, Instituto Superior Técnico, University of Lisbon

1. **2017** **Video-Based Risk Assessment for Cyclists**
M.Sc. Thesis, Electrical and Computer Eng., Instituto Superior Técnico, U. Lisbon

5. Conference Activity & Invited Talks

Keynote Talks

2. **2025** **Objective and Subjective Safety Mapping for Urban Cyclists**
10th International Conference on Intelligent Transportation Engineering (ICITE) 2025
Beijing, China, Oct 24–26

1. **2025** **Switching Gears: Pedalling to Climate Resilient Transport**
EIT Doctoral Training Network Annual Forum 2025
Lisbon, Portugal, Sep 10–12

Invited Research Talks

3. **2026** **(planned) Feeling Safe vs. Being Safe: Comparing Objective and Subjective Cycling Safety in Urban Contexts**
Shared Micromobility Workshop, Masaryk University
Brno, Czech Republic, Apr 17

2. **2025** **Climate Adaptation with Reinforcement Learning: Experiments with Flooding and Transportation in Copenhagen and Esbjerg**
GRETTIA, Université Gustave Eiffel
Paris, France, Oct 16

1. **2024** **Which environment looks safer? Using machine learning for analyzing perception of cycling safety in Berlin**
Big data and Transport, University of Cape Town
Online - Cape Town, South Africa, Oct 24

Sessions Chaired/Moderated

2. **2025** **Collaborative Control and Scheduling of Multiple Transportation Modes in Intelligent Transportation Networks**
10th International Conference on Intelligent Transportation Engineering (ICITE) 2025
Beijing, China, Oct 24–26

1. **2024 Pitch your Research**
EIT Doctoral Training Network Annual Forum 2024, Ghent University
Ghent, Belgium, Sep 16–18

Conference Presentations (not peer-reviewed)

14. **2026 (planned) MA'AT: Maximising wellbeing with AI under deep climate turmoil**
Miguel Costa, Arthur Vandervoort, Martin Drews, Karyn Morrissey, Francisco C. Pereira
EIT Urban Mobility Community Days 2026. Copenhagen, Denmark (Poster)

14. **2025 Climate Adaptation with Reinforcement Learning: Economic vs. Quality of Life Adaptation Pathways**
Miguel Costa, Arthur Vandervoort, Martin Drews, Karyn Morrissey, Francisco C. Pereira
Danish Meteorological Institute's 2025 Climate Symposium. Copenhagen, Denmark (Poster)

13. **2024 Urban Motorcycle Helmet Use Surveillance in Southeast Asia - A Cost-Efficient Computer Vision Approach**
Felix W. Siebert, Christoffer Riis, **Miguel Costa**, Frederik B. Hüttel
15th World Conference on Injury Prevention and Safety Promotion (Safety 2024). New Delhi, India (Oral)

12. **2023 Understanding cyclists'perception of safety using eye tracking**
Miguel Costa, Felix W. Siebert, Manuel Marques, Carlos L. Azevedo, Filipe Moura
Grupo de Estudos de Transportes 2023. Oeiras, Portugal (Oral)

11. **2022 Subjective Risk Mapping for Urban Cyclists**
Miguel Costa, Manuel Marques, Felix W. Siebert, Carlos L. Azevedo, Filipe Moura
EIT Doctoral Training Network Annual Forum 2022. Barcelona, Spain (Oral)

10. **2022 Subjective Risk Mapping for Urban Cyclists**
Miguel Costa, Manuel Marques, Felix W. Siebert, Carlos L. Azevedo, Filipe Moura
Grupo de Estudos de Transportes 2022. Porto, Portugal (Oral)

9. **2022 Percebendo a segurança objetiva dos ciclistas urbanos: uma revisão sistemática da literatura**

Miguel Costa, Manuel Marques, Filipe Moura
Ciência 2016 – Meeting with Science and Technology. Lisbon, Portugal (Poster)

6. Research Grants and Funding

Selected Past Applications

2026 **Lead Applicant**. *FUTURBAN – Learning Multimodal Spatial and Temporal Representations of Urban Dynamics for Future Planning.* Postdoctoral Fellowship, Danish Data Science Academy (1.500.000 DKK). Submitted.

2025 **Lead Applicant**. *FUTURBAN – Learning Multimodal Spatial and Temporal Representations of Urban Dynamics for Future Planning.* Marie Skłodowska-Curie Postdoctoral Fellowship, European Commission (226.420,56€). Overall score: 94.6/100% — Not funded.
Awarded the Seal of Excellence.

2025 **Co-author** (Partner PI: Francisco C. Pereira, DTU). *ATHENEA – An AI-Based Digital Twin For Shaping, Planning, and Managing Climate-Neutral Urban Futures*, Consortium led by Universidad Politécnica de Madrid. EU Horizon HORIZON-MISS-2025-04-CIT-02 (European Commission) (903.372,45€). Author of reinforcement learning component for long-term climate planning work package. Overall evaluation score: 13/15 — Not funded.

2020 **Primary Author / Contributor** (PI: Dr. Rosa Félix). "*SAFECYCLING – Automatic, Continuous and Ubiquitous Mapping of Cyclists' Subjective Safety*", Fundação para a Ciência e Tecnologia (Portuguese national research funding agency) (249.792,18€). Led proposal development, including research design, methodology, and budget preparation. Overall evaluation score: 7.8/9.0 (Scientific Merit: 8.25/9.0) — Not funded.

2018 **Contributor** (PI: Prof. Filipe Moura). "*BikeRider: Sensory navigation system adapted to different cyclist profiles*", 2nd Edition of TecInnov Thales — IST (3.820€). Contributed to methodology development. Funded Jan 2018.

2017 **Contributor** (PI: Prof. Filipe Moura). "*WalkBot: Automated collection of urban pedestrian accessibility data*", 1st Edition of TecInnov Thales — IST (4.970€). Contributed to methodology development. Funded Aug 2017.

7. Honors & Awards

2026 **Seal of Excellence** *Marie Skłodowska-Curie Actions, Postdoctoral Fellowship*

2025 **Best Proposal Award** *Tackling Climate Change with Machine Learning workshop, International Conference on Learning Representations (ICLR) 2025*

2025 **Travel Grant** *Otto Mønsteds Fond, 7.500 DKK*

2024 **Travel Grant** *Otto Mønsteds Fond, 7.500 DKK*

2018 **MIT Portugal Doctoral Fellowship (4-year PhD grant)** *Fundação para a Ciência e Tecnologia (national science funding institution in Portugal)*

8. Supervision & Mentoring

MSc Supervisor

1. **Rita Saraiva (DTU), Planned Mar 2026.**
2. **Beatriz Braga de Carvalho (DTU), 2026.** *Analysing Reinforcement Learning Policy Behavior for Climate Adaptation: A Study within the MA'AT Framework*
3. **João Machado Cerejo de Miranda (DTU), 2026.** *Sample Efficient Climate Adaptation Policy Optimization: A Bayesian Optimization Benchmark for the MA'AT Framework*
4. **Xixi Wang (DTU, with Chalmers University of Technology), 2025.** *AI-Driven Analysis of Crash Narratives: Evaluating Open-Source LLMs for Structured Information Extraction*
   → Work presented at the Empirical Methods in Natural Language Processing (EMNLP 2025) (A* AI Conference)
   → Work submitted to Transportation Research Part C: Emerging Technologies.
5. **Morten William Petersen (DTU), 2024.** *Deep Reinforcement Learning adds value to an Integrated Assessment Model for guiding policymakers*
   → Work presented at the Tackling Climate Change with Machine Learning workshop at the Conference on Neural Information Processing Systems (NeurIPS) 2024 (A* AI Conference)

BSc & Special Project Supervisor

1. **Ida Sofie Sternhagen Nielsen (DTU), Ongoing.**
2. **Sae Fujii (DTU), Ongoing.**
3. **Rita Saraiva (DTU), Ongoing.**
4. **Emilie Grønborg Kristensen (DTU), 2025.** *Climate adaptation and vulnerability of urban transport systems to flooding*

Industry & Start-ups

2021–2022 **Dilemma Insights - Technical Advisor** *Providing technical consultancy on how to use business game simulations within a classroom environment.*
